

Kayak Equipment Testing Centre is the largest in the Pomeranian voivodeship. It was established with regard to the canoeists who are not exactly sure which model to choose. The variety of equipment, producers and technologies make you feel dizzy! The same questions repeat: should I pick shorter or the longer kayak? Should it have straight or cut bow? Should it be wide or narrow? With or without footstools? Neoprene or nylon spray skirt? Cheap or expensive? Our instructors will answer all your questions concerning kayaks.

Our crew gained great experience paddling down the lowland and mountain rivers in the best possible kayaks. We wish to share some of this experience and help you choose your own, unique equipment.

Our kayaking centre gives you the possibility to test all variety of the kayaks manufactured by the best producers. You can try singles and doubles in different configurations. With the help of our instructors, the final choice will be carefully thought out. Your new kayak will be perfectly tailored to suit your individual needs.
